ABOUT US

“

Quality, aesthetics & performance. Are our standards. With more than 15 years of experience in the construction and manufacturing industry, Crown has established a reputation for innovation, craftsmanship, and reliability.

Designed & engineered to be both beautiful and resilient, our products are carefully designed to combine the timeless beauty of natural wood with the advanced performance of modern cellular PVC technology. This allows architects, builders, and homeowners to achieve stunning exterior finishes without the maintenance concerns associated with traditional materials.

Pre-finished. We offer all our products pre-finished in a variety of colors, using our proprietary solar-reflective paint and stain finishes for exceptional beauty, product integrity, and longevity.

Give Us a Call – You’ll Be Glad You Did!

”

INDUSTRY-LEADING Warranty protection

When you choose Crown Composite, you're investing in more than just premium products—you are investing in long-term confidence. Backed by our comprehensive warranty, our siding, trim, and molding are built for strength, durability, and low maintenance, ensuring your home stays beautiful without worries. We stand behind our products every step of the way because your home deserves products that last—and a warranty that delivers. 20 years fade resistance warranty and 50 years substrate warranty

CROWN COMPOSITE SHINGLE SIDING

Mist Gray 02W

CROWN PVC siding and trim products are among the most versatile materials available today. They offer all the benefits of low-maintenance materials while preserving the beauty and aesthetic of real wood. For many years, our products have been featured in prestigious projects and have become the preferred choice of contractors. All CROWN PVC products comply with applicable building codes, both locally and nationwide.

COMMON ISSUES WHEN USING WOOD AND FIBER CEMENT PRODUCTS

To eliminate the frequent repairs and maintenance that often come with wood and fiber cement products, it's time to consider superior alternatives! These traditional materials tend to absorb moisture, which negatively affects their durability. Crown Composite's advanced 100% cellular PVC products outshine traditional options, and our products are virtually maintenance-free, giving you peace of mind.

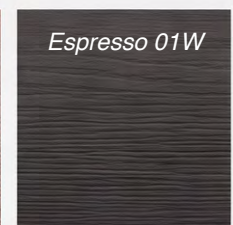

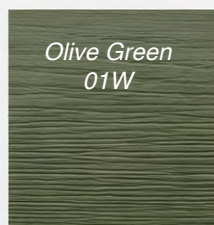

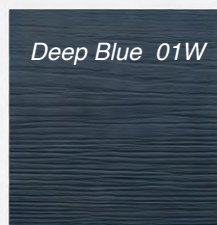

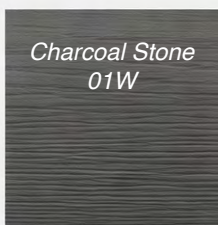

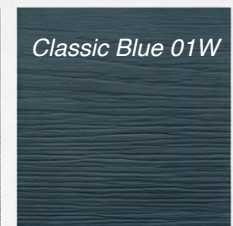

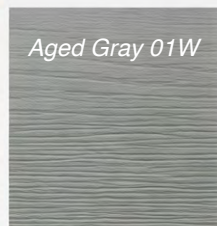

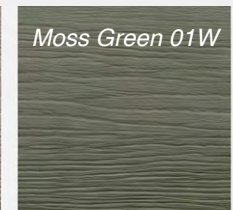

WOOD GRAIN TEXTURE

CLASSIC COLORS

Crown composite wood grain texture is our most popular surface finish for all our trim and siding products. Proven over the years to be an excellent option for any project. Its rich, natural wood appearance provides a classic, authentic result.
